

P100A & P100WO - Best Selling Sprayer Series

The P100A (Acetone) and P100WO (Water & Oil) are SMK's premier and most popular compact bucket-top sprayers. They are fully loaded with patent-pending features specifically designed for ease of use, durability, and dependability. Ideal for low volume, intermittent duty applications, the P100 series reduces product application time 200% or more over old-fashioned hand pump sprayers. The P100 is a cost

effective, highly reliable bucket top sprayer, designed to be the workhorse for tough working environments.
